

ARCHITECTURAL SOLUTIONS PORTFOLIO

Architectural Façade, Interior & Acoustic Solutions

For over two decades, **OBRAS International** has redefined the landscape of ventilated façade and architectural systems across the Middle East.

Established in 2005, **OBRAS** began as a bold idea — to merge creative design, engineering precision, and sustainable innovation into a single architectural force.

Today, we define excellence in **ventilated façade solutions** — **from material supply and design consultancy to technical expertise and project delivery across the UAE and GCC.**

Our approach isn't just about building façades — it's about crafting identity through architecture.

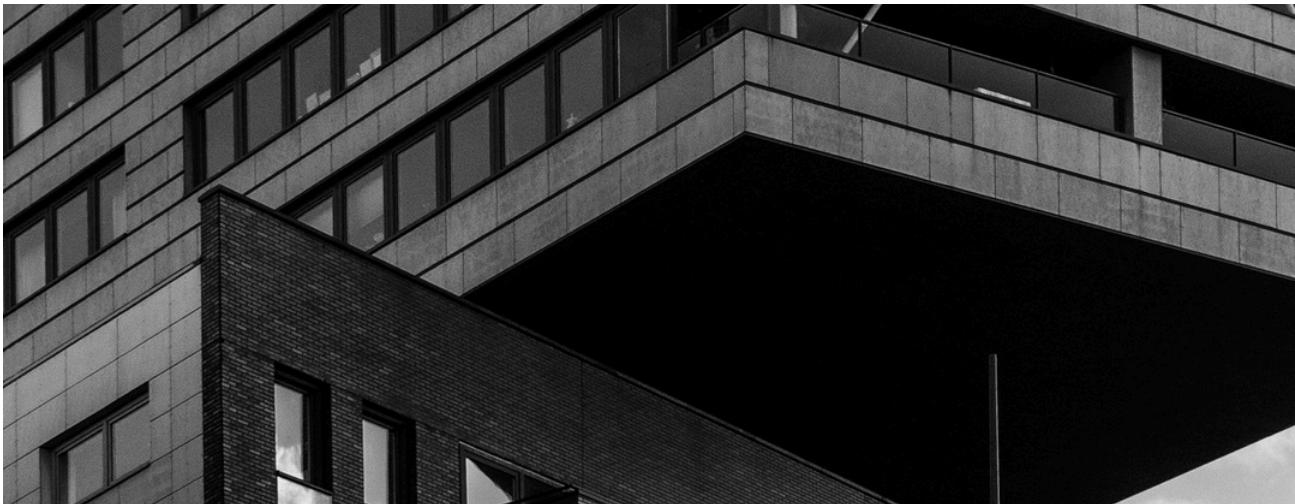

**Where Engineering
Meets Artistry**

Beyond Aesthetics. Beyond Boundaries. Beyond Expectations.

Our Vision

To be the region's most trusted and innovative façade solution provider, empowering architects and developers to bring bold architectural concepts to life — sustainably, beautifully, and intelligently.

Our Mission

To transform architectural visions into living, breathing structures by integrating advanced materials, intelligent systems, and exceptional craftsmanship. We deliver façade solutions that perform as beautifully as they look

Our Philosophy

We believe every structure tells a story. Our role is to translate that story into a built form that reflects durability, sustainability, and timeless design.

What Makes **OBRAS** Different

Ventilated Façade Expertise with Depth – Over 20 years of specialized experience in ventilated façades, high-performance cladding, and innovative façade systems.

Global Partnerships – Exclusive partnerships with leading global brands

Sustainability by Design – From eco-certified materials to energy-efficient façade systems, we drive projects toward green building compliance and reduced carbon footprints.

Architectural Collaboration – We work hand-in-hand with architects, consultants, and developers to transform concepts into buildable, optimized solutions.

Precision Engineering – Technical teams ensure quality control and seamless delivery from concept to completion.

Building Tomorrow's Identity.

Façade Solutions

Every façade tells a story of precision and purpose.

At OBRAS, we supply high-performance systems that breathe with the climate—delivering designs that protect, perform, and inspire through intelligent material integration and timeless visual harmony.

Interior & Acoustic Solutions

Design You Can Hear and Feel.

Designed to inspire comfort and clarity, our interior wall and acoustic systems elevate every environment — harmonizing visual elegance with exceptional sound performance.

Project Management & Technical Assistance

Where vision meets flawless execution.

OBRAS integrates design intelligence with technical rigor to ensure that every façade project achieves global benchmarks in safety, performance, and sustainable construction excellence.

High-Performance Building Envelope Solutions

Natural Wood Cladding

Authentic real wood aesthetics with engineered exterior durability

PARKLEXPROMEMA

Fiber Cement Façades

Through-coloured, non-combustible façade with contemporary design flexibility

EQUITONE

Sintered Stone Panels

Large-format sintered stone with seamless design and exceptional durability

TECHLAM

Engineered Stone Cladding

Lightweight natural stone system for premium ventilated façades

ULMA

Ventilated façade compatible | High fire performance | Durable in GCC climate | Sustainable material options | Design flexibility | Low lifecycle maintenance

Contemporary Ceramic Façades Solutions

Porcelain Ceramic

Ventilated Façades, Commercial Buildings, High-Rise Projects

Concealed fixing porcelain façade system with superior durability

exa | TECH

Large Format Porcelain

Façades, Interior Walls, Flooring

A1 fire-rated large-format porcelain with minimal water absorption

ARGOS

Architectural Terracotta

Ventilated Façades, Education, Public Buildings

Sustainable terracotta façade offering timeless aesthetics and long-term performance

TONALITY

A1 & High Fire Performance | Ventilated Façade Compatible | UV & Weather Resistant | Low Maintenance | Long Service Life | Ideal for GCC Climate | Colour Stability

Architectural Innovation

Build with concrete. Design with light.

Feature Façades | Feature Walls | Public & Cultural Buildings | Landscape Features

LUCEM

Light-Transmitting Concrete | Authentic Concrete Aesthetic | Natural Daylight Integration | Stunning Day-to-Night Effect | Custom Patterns & Design Freedom

Engineered Composite Systems for Outdoor Architecture

WPC Cladding & Louvre

Timber-inspired cladding with exceptional durability and low maintenance

WOODN

Premium Decking

High-performance composite decking with innovative fastening systems

EXTERPARK

WPC Decking

Durable outdoor decking engineered for long-lasting performance

XYLTECH

Natural Timber Appearance | Low Maintenance | UV & Weather Resistant | Moisture & Rot Resistant | Sustainable Alternative to Timber | Ideal for GCC Outdoor Environments

Premium Materials for Inspiring Interior Spaces

Interior Wood Panels

Natural wood veneer with lasting durability

PARKLEXPRODEMA

Fiber Cement - Interior

Contemporary textured panels with fire-safe performance

EQUITONE

Large Format Sintered Stone

Seamless surfaces with exceptional durability

TECHLAM

Large Format Porcelain

Premium porcelain for walls and floors

ARGOS

WPC Interior Cladding

Warm timber aesthetics with low maintenance

WOODN

Transparent Concrete

Light-transmitting concrete for statement interiors

LUCEM

Trusted Partnership

PARKLEX PRODEMA

Natural Wood Surfaces

Real wood veneer engineered for extreme climates.

Engineered Stone Facades

Durable, seamless façade systems with precision detailing.

Acoustic Solutions

High-performance decorative acoustic panels.

Fibre cement facade materials

Fibre Cement Panels

Monolithic, through-coloured façade material designed by architects.

Eco Composite Materials

100% recyclable, weather-resistant wood composites.

Porcelain Facades & Decking

Ventilated ceramic façades and technical flooring

SPECIES UNICA

BORN IN VENICE

Technical Wood Composites

FSC-certified, low-maintenance material that blends nature and technology.

Porcelain Slabs

Prefabricated panels with modern texture and strength.

Architectural Terracotta

Sustainable terracotta façade

UNLIMITED & AMAZING

Sintered Stone Panels

Ultra-slim, large-format slabs for façades and interiors.

Exterior Decking

Hidden-fix decking in natural wood and eco composites.

Transparent Concrete

Light-transmitting concrete creating iconic architectural façades

Building Responsibly

- Fire-rated façade and cladding systems
- Tested for acoustic, thermal, and mechanical performance
- Sustainable sourcing and environmental certifications
- Compliance with regional and international building codes

Sustainability is embedded in everything we build.

Trusted by Visionaries

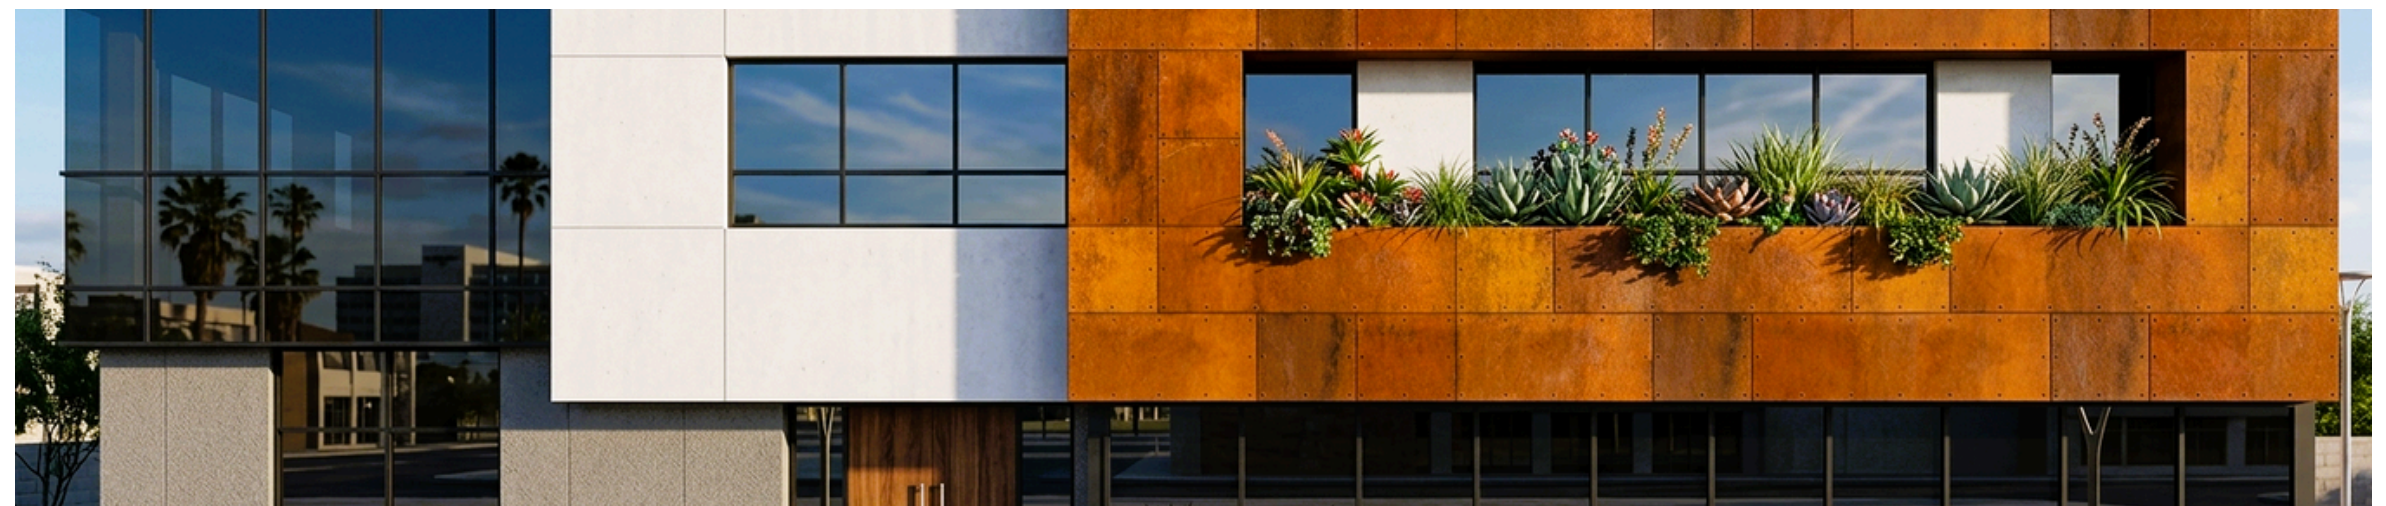

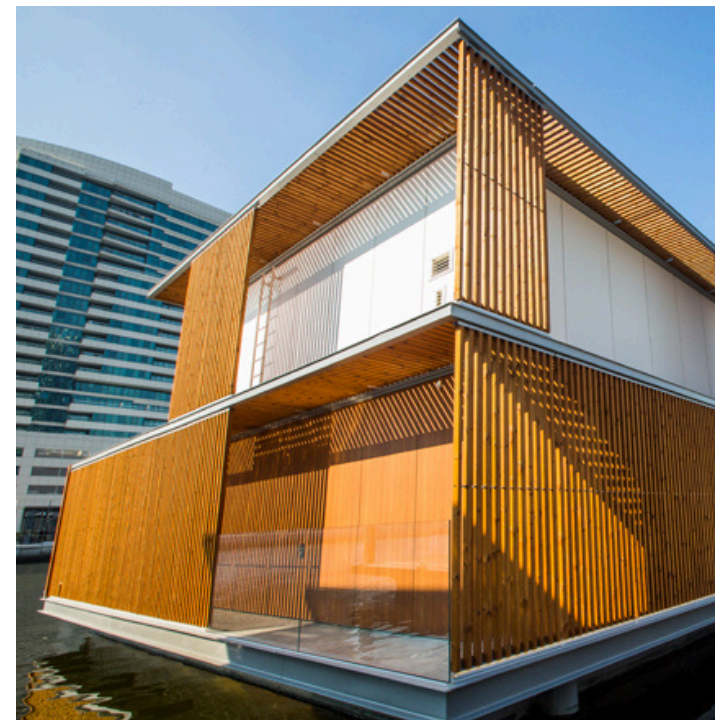

"OBRAS is more than a supplier—they're a partner in design excellence."

Defining Skylines across the GCC

"Every surface we design, every façade we build — reflects our belief that architecture can inspire, protect, and endure."
